

Video Router

MST-WF11NM

UCD-210M

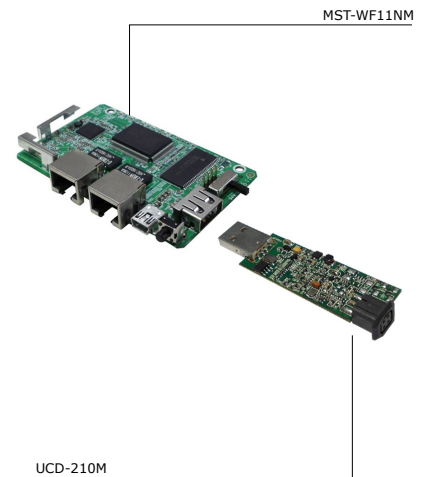

UNIT:±0.5mm

Feature

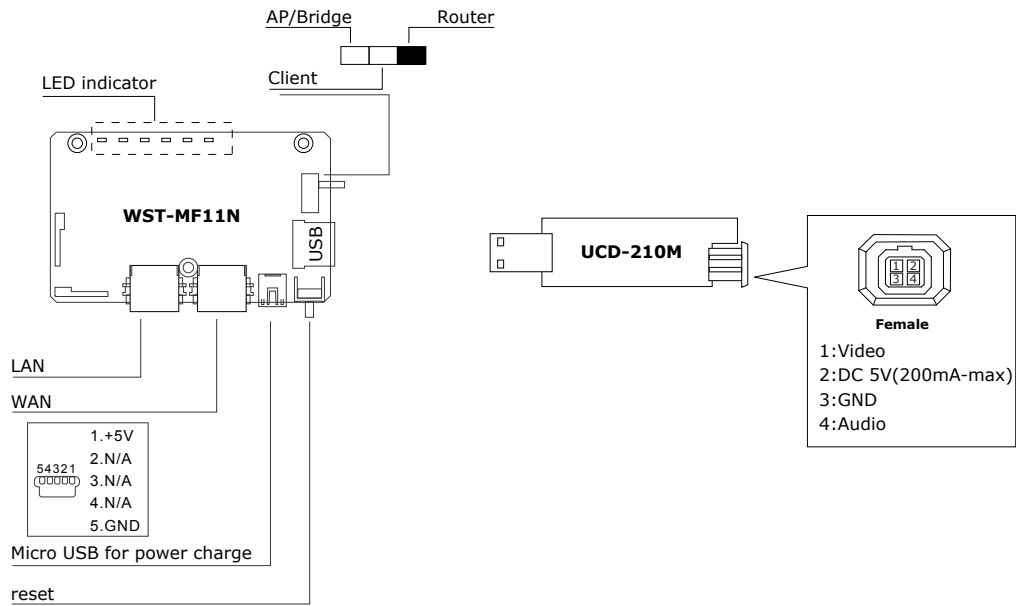

- Business card size!
- Application of video wireless WIFI transfer to "iPAD , iPhone, Android Tablet, Android Phone , PC"(Use with UCD-210)
- WIFI 802.11n

Specification

| | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Features: | |
| | <ul style="list-style-type: none"> • Connects to Windows XP machines USB 2.0 port • TCP Video MJPEG stream 640x480 up to 25fps 320x240 up to 30fps 160x120 up to 30fps • Support windows XP, WIN 7, IPAD, OSX android (Samba Server support need samba client APP)Audio support (RTSP) |
| MST-WF11NM | |
| Standard | IEEE 802.11b/g/n standards compliant |
| Wireless LAN | 2T2R Mode |
| Antenna | a.2 RJ45 (1LAN, 1WAN) , b.1 USB ,Reset/WPS button , c. Slide switch to select Router, AP, or client mode |
| Frequency Range | 2.400 ~ 2.4835 GHz (subject to local regulations) |
| Number of Selectable Channels | a.802.11n 20MHz/40MHz , b.802.11b/g , c.USA, Canada (FCC); 11 channels (2.412GHz~2.462GHz) , d.Europe (CE): 13 channels! (2.41GHz!2.472GHz) , e.Japan (TELEC): 14 channels(2.41GHz~2.4835GHz) |
| Data Rate | a.802.11n: up to 150Mbps , b.802.11g: 6,9,12,18,24,36,48,54Mbps , c.802.11b: 1,2,5.5, 11Mbps |
| Coverage Area | Up to 6 times faster than existing 802.11b/g product |
| Transmit Power | a.11n HT40 MCS7 : +13.5dBm , b.11b CCK: +17.5dBm , c.11g OFDM: +13.5dBm |
| Receiver Sensitivity | a.-66dBm at HT40 MCS7 , b.-73dBm at 54Mbps , c.-86dBm at 11Mbps Power, WPS, Wireless LAN, WAN |
| | a.DHCP Client , b.Static IP , c.PPPoE (for ADSL) , d.L2TP , e.PPTP |
| Networking | a.DHCP Client/Relay/Server , b.Dynamic DNS , c.NTP Client , d.DNS Cache/Proxy e.Firewall: MAC/IP/Port Filter , Virtual Server , DMZ , Content Filter |
| LED | a.1Transmit and 1 Receive paths (1T1R) , |
| WAN | b.20MHz/40MHz bandwidth , c.Support Multiple SSID , d.Support Hidden SSID , e.Support WPS , |
| WiFi | f.Clock rate up to 400MHz Legacy and High Throughput Modes , g.High security: WEP64/128,TKIP, WPA,WPA2 AES,mixed, 802.11i h.802.1X Authentication with RADIUS Client , i.QoS-WMM, WMM-PS |
| UCD-210MM | |
| PC Requirements: | |
| <ul style="list-style-type: none"> a. Driver free (USB Video Class) for any (windows XP \ Vista \ win7, Linux any version, MAC OS) b. A/V CVBS NTSC / PAL input, Play & Plug with USB Video Class c. Live video calls with MSN Messenger \ SKYPE ,YouTube and JoinNet d. 4 GB+ of hard disk for video capture space, Available USB 2.0 port e. Captures video at resolutions up to 720 x 480 (NTSC) or 720 x 576 (PAL/SECAM) f. Build in 3D comb filter and 3D de-interlace g. Video can be directly captured as .AVI, compressed AVI,MPEG-1 or Windows Media Video | |

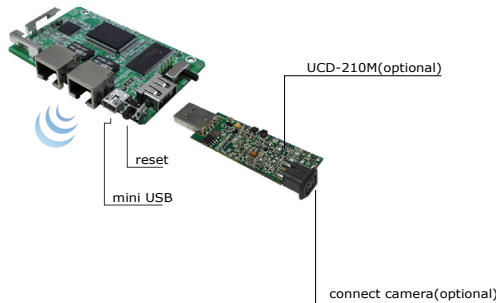

Order information

How to preview

It can preview video on device ,iPad, Tablet(Android) , iPhone, Android phone ,MAC book and PC / laptop by UCD-WF11NM(Wifi)

1.UCD-210M connected to MST-WF11NM

- 2.After power on ▶ click to WIFI ▶ inspection network ▶ Rearrange network list ▶ click to "WF11N"
- 3.Browse Web page ▶ type " http://10.10.1.1:8196 " on the internet site ▶ enter

Please click this Website to see video demo:
http://www.misumi.com.tw/DEMO/UCD_WF11NM.html

1. iPad , iphone
(safari, quicktime player, and IP cam viewer preview video)
2. Tablet(Android) , Android phone
(IP cam viewer preview video)

3. MAC , MAC BOOK
(safari, quicktime player, stream player and IP cam viewer preview video)

4. PC/laptop
(safari, firefox, Google Chrome, stream player, quicktime player, and IP cam viewer preview video)
